PROFFESIONAL EXPERIENCE

Public Health Systems Analyst

Feb. 2025 - Present

Johnson County Public Health, Iowa City, IA

- Support a wide range of public health initiatives by providing technical and computational assistance through data visualization, geospatial analysis, community survey development, web design and maintenance, and dashboard development.
- Led the development of an online county-wide resource directory containing +450 unique services across a spectrum of practices where those needing assistance can find catered resources and contact information to fit their unique needs.
- Co-lead a community food security assessment in 2025 by partnering with local food pantries to support existing community efforts to enhance food access and strengthen connections between local food distributors and community members.

EDUCATION

The University of Iowa, Iowa City, IA

May 2024

B.A. Health Informatics

- Minor: Computer Science
- Certificate: Public Health

Southeastern Community College, West Burlington, IA

May 2021

Associates of Arts

INTERNSHIP EXPERIENCE

Community Health Intern

Sept. 2023 – Feb. 2025

Johnson County Public Health, Iowa City, IA

- Assisted with the development of a county-wide assessment on opioid use helping educate county supervisors and the public on effective methods to reduce opioid use disorders.
- Collected, synthesized, and analyzed community health data for the county-wide assessment, achieving a detailed understanding of the opioid crisis using tools like Python and ArcGIS Pro.

Undergraduate Research Assistant

June 2023 – June 2024

Driving Safety Research Institute, Iowa City, IA

- Utilized Python to conduct statistical analyses evaluating the relationship between motor control performance and acute alcohol as well as cannabis intoxication revealing key behavioral insights in safe driving ability.
